

ABDUR RAHMAN

Python Backend Developer | Django | Django REST Framework | FastAPI
Islamabad, Pakistan | 03000735665 | abdurrahmanios710@gmail.com

PROFESSIONAL SUMMARY

Python Backend Developer with 2+ years of experience building scalable backend applications and RESTful APIs using Python, Django, Django REST Framework, and FastAPI. Experienced in developing production-ready solutions for enterprise clients, including sports management and retail administration platforms. Skilled in API development, authentication & authorization, PostgreSQL, database optimization, Redis, Celery, and Django Admin customization. Strong collaborator with Agile teams, focused on writing clean, maintainable, and high-performance backend code.

CORE COMPETENCIES

• Python Development • Django • Django REST Framework (DRF) • FastAPI • REST API Development • PostgreSQL • MySQL • SQLite • JWT Authentication • Database Design • API Integration • Redis • Celery • Git & GitHub • Linux / Ubuntu • Django Admin Customization • Jinja Templates • Performance Optimization • Debugging & Troubleshooting • Agile Development

PROFESSIONAL EXPERIENCE

Python Backend Developer

Feb 2025 - Present

Enigmatix — Islamabad, Pakistan

- Develop scalable backend applications using Python, Django, and FastAPI.
- Build and maintain RESTful APIs using Django REST Framework.
- Implement secure authentication, authorization, and JWT-based access control.
- Optimize database queries and API performance using PostgreSQL.
- Debug production issues and maintain application stability.
- Collaborate with frontend developers, QA engineers, and project managers in Agile teams.
- Participate in code reviews, sprint planning, and Git-based development.

PROFESSIONAL PROJECTS

SAMS — Space Asset Management System

Backend Developer

Enterprise platform for managing organizational spaces and assets.

- Developed scalable REST APIs and manager-side CRUD modules.
- Implemented authentication, permissions, and backend business logic.
- Worked with PostgreSQL/PostGIS for spatial data and optimized database queries.
- Collaborated on feature development and resolved production issues.

Technologies: Python, Django, Django REST Framework, PostgreSQL, PostGIS, Git

WOOV Club

Backend Developer

Sports club management platform for bookings, memberships, and events.

- Developed APIs for club discovery, bookings, and event management.
- Built court reservation, coach management, and image upload features.
- Improved backend performance and fixed production issues.

Technologies: Python, Django, Django REST Framework, PostgreSQL, Redis, Celery, Git

Danube

Backend Developer

Administrative systems for Danube (BinDawood Holding).

- Developed REST APIs and internal management modules.
- Customized Django Admin and implemented secure authentication.
- Optimized database performance and resolved production issues.

Technologies: Python, Django, Django REST Framework, Jinja Templates, PostgreSQL, Git

TECHNICAL SKILLS

- **Languages:** Python
- **Frameworks:** Django, Django REST Framework, FastAPI
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools & Technologies:** Git, GitHub, Redis, Celery, Postman, Gunicorn, Nginx, Linux
- **Core Skills:** REST APIs, JWT Authentication, CRUD, API Documentation, OOP, MVT, Database Design, Authentication & Authorization, API Security, Performance Optimization, SOLID Principles.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2021 - 2025

The Islamia University of Bahawalpur (IUB) — Bahawalpur, Punjab, Pakistan

ACHIEVEMENTS

- Successfully delivered multiple production-ready backend applications for enterprise clients.
- Developed secure and scalable REST APIs supporting live enterprise systems.
- Contributed to production platforms serving users in Saudi Arabia, including retail and sports management systems.
- Improved backend performance through database query optimization and efficient API design.
- Resolved complex production issues while maintaining application stability.
- Collaborated effectively within Agile software development teams to deliver features on schedule.
